

**LOX barstools.** Design: PearsonLloyd.

---

Lox is the perfect invitation to take a seat. The swivelling barstool is surprisingly comfortable and can be adjusted to just the height you require. The button for adjusting the height is hidden under the seat. A plastic cast in white or black, chromium-plated steel and upholstered seats complement each other to form a dynamic silhouette.

## Product description

---

### Design awards

reddot design award
